

GM BluePlan Engineering Limited

is currently seeking a

**Civil or Structural Engineer
(full-time permanent position)**

Location: London, Ontario

GM BluePlan Engineering is an employee-owned, engineering consulting firm with seven offices throughout southwestern Ontario. We have earned a reputation for providing quality civil engineering services through a teamwork approach. Our specialties encompass the following disciplines: land development, site servicing, municipal, water and wastewater treatment, hydrogeology, municipal planning, bridge design, building design, municipal drainage, environmental, materials testing, and geotechnical. We work with a broad range of public and private sector clients who have entrusted our professionals to guide them in the design and implementation of a variety of projects. Our commitment to develop and retain a diversified and professional staff gives us the strength to provide innovative, practical and cost-beneficial solutions to our clients' engineering needs, both today and into the future.

Under the supervision a professional engineer and senior designers, the successful candidate will be responsible for assisting with the following duties: writing proposals, developing and evaluating design alternatives, completing and reviewing detailed engineering design calculations, and coordination of drawings with drafting staff. Candidates would also be expected to meet with clients, contribute to business development, write design reports, develop construction specifications, prepare construction cost estimates, provide contract tendering and administration services and carry out field work including structure condition assessments, field measurements, and construction inspection.

Candidates must be self-starters with the ability to work independently and in a fast-paced team environment. The successful candidate must possess strong organizational, oral, written communication, and problem solving skills, have an approachable interpersonal style, be prepared for increasing and wide ranging responsibilities, and possess, or be eligible to obtain their Professional Engineer (P.Eng.) designation and licence in Ontario. Experience with S-Frame, MS Word, MS Excel, MS Powerpoint and AutoCAD software is an asset. Prior experience in a small sized, rural consulting firm with an ownership position would also be looked upon favourably.

The ideal candidate must be a team player and have demonstrated technical competencies and skills in civil engineering or structural engineering with motivation to broaden their experience in the areas of design, construction, project management, operations and supervision within a multi-disciplinary consulting environment. Experience with Municipal Drains under the Drainage Act, R.S.O. 1990, would be viewed favorably. Our company size allows flexibility, diverse project experiences, and growth opportunities for self-motivated employees.

GMBP is committed to providing a flexible work environment and a competitive compensation package which includes benefits and RSP programs for full-time permanent staff. In addition to promoting career development, education opportunities and extra-curricular social activities, we strongly value energetic and creative individuals.

Candidates who are interested in becoming a part of our dynamic team environment are invited to email their resume to careers@gmblueplan.ca. Please indicate the position name and location in the subject line of their email application. If you are an applicant with disabilities and require accommodations, please let us know at the time of contact and provisions will be arranged.

We thank all applicants; however, only those selected for an interview will be contacted.
