- Creating infrastructure solutions while respecting the public, social and natural environments
- Maintaining a culture founded on mutual respect while achieving and contributing to our collective corporate goals

Come join our amazing team of talented, energetic and creative people that together contribute to the continued growth and success of the company!

RESPONSIBILITIES:

- Work within a specialized water/wastewater civil engineering team responsible for water supply, treatment, storage and distribution, wastewater collection, pumping and treatment
- The ideal candidate has strong understanding and experience in the life cycle of water/wastewater infrastructure
- Managing and delivering projects from concept to completion including business development, proposals, condition assessments, feasibility studies, Municipal Class Environmental Assessment, design, tendering, contract administration, commissioning, training and project close-out.
- Coordinating with other specialist disciplines and sub-consultants on multidisciplinary projects
- Other duties as assigned

QUALIFICATIONS:

- Demonstrated technical competencies and skills in water/wastewater civil and process engineering
- Possess strong organizational, oral, written communication and problem-solving skills; have an approachable interpersonal style
- Self-starter, takes initiative and is responsible and dependable
- Ability to objectively evaluate problems and opportunities and think outside the box
- Motivated to continuously learn and broaden their experience to enhance their engineering knowledge and qualifications
- Professional Engineer (P.Eng.) licenced in Ontario
- Possess a valid driver's licence

WE ARE COMMITTED TO PROVIDING:

- A dynamic and balanced work environment which encourages teamwork, initiative and ingenuity
- Exposure to a broad range of civil engineering projects
- Personalized opportunities for career development, training and education
- A positive work experience and opportunities for growth and advancement
- A competitive compensation package commensurate with experience, including a benefit package and RRSP program
- Extra-curricular social activities (team building, company parties, social events and more)

JOIN OUR TEAM!

Candidates who are interested in joining our dynamic team are invited to forward their resume via email to careers@gmblueplan.ca, indicating the **position** in the subject line of their email.

We thank all applicants; however only those selected for an interview will be contacted.

GM BluePlan Engineering will accommodate candidates under the AODA legislation in all aspects of the hiring process. Please notify us if accommodation is required.
